## Restrictions

---

You must be able to receive cash prizes by either PayPal or Venmo. If there are conversion fees or other types of transaction fees, they will be deducted from the prize amount.

Cash prizes originate from the United States. If you are unable to receive cash prizes due to regional restrictions, we will unfortunately not be able to fulfill your cash prize. You may choose to donate your prize to a charity of your choice in lieu.

We'll do our best to ship physical prizes to all winners, but if there are laws or regulations in your country that prevent us from sending them to you, we won't be able to help. Unfortunately, that's between you and your government. We will ship from the United States and provide you with a tracking number if possible. Tracking is not always possible.

We will only be able to deliver to one address per team. Some countries may impose an additional delivery fee on the recipient, which we are not able to pre-pay due to recipient laws. If this is the case, please save your receipt and send it to [contact@irisc.tf](mailto:contact@irisc.tf) so you can be reimbursed for the delivery charge.

Please email [contact@irisc.tf](mailto:contact@irisc.tf) as soon as you receive your physical prizes to confirm delivery. International shipping has historically taken a long time. If you do not receive your package within 3 months of receiving a tracking number, please email [contact@irisc.tf](mailto:contact@irisc.tf) and we'll see what we can do to re-send it. Please be aware that re-sending is not guaranteed and depends on team IrisSec's available resources.

## Other Cases

---

For any edge cases not covered here, please email [contact@irisc.tf](mailto:contact@irisc.tf) or open up a support ticket in the IrisCTF Discord. IrisSec will address each concern on a case-by-case basis.
